Proconsul described

Hopwood, A. Tindell

1933. Miocene Primates from British East africa. Annals & Mag. of Nat. Hist. Ser. 10, vol. XI, pp. 96-98 (description on p. 98)

Lower Miocene deps. of Koru, Kenya Colony

Diag. of genus Proconsul (n. gen.)

"an anthropoid ape approximating to the chimpanzee in size - - - - - - "

Holotype (P. africanus): Left maxilla with teeth from C to M3 slightly worn M 17087 Brit. Mus. Geol. Dept.

Affinities: "Proconsul is related to Dryopithecus & ancestral to the chimpanzee."

The genera Limnopithecus (gibbon-like) (specialized descendant of Propliopithecus & Xenopithecus (specialized anthropoid of Egyptian Lake Plateau Miocene stock) are also described from this same area.

Monday, May 14

(1) Write to Romer

(2) Call Wilmot (see item 3 Thurs May 10)

(3) See Smyth about fumigation
Teach Edwards on incoming
Etc.

(4) See Besson
Arrange time to check T
place to leave woes
Dammers in stall
Trilobite case

(5) Write SVP note

(6) 2 P.M. - Bonnie re Classif.
Give her Budget

(7) May 15 return quarterly Budget breakdown & fwd

For Beck - Wed. P.M. (3 o'clock call him)
Saber tooth skull T femur (lion)
Mylodon femur
Horse tooth (frag of jaw with tooth in)

Thurs., May 10

① Write SUP Bulletin ✓

② Make sure scaffold & other things ready for Willis for Monday May 17 off Thurs & Fri.

③ See Wilinsky about postcards & hardbooks

④ Check with staff about vestibule exhibit

⑤ Have Bill check Bonnies scrapbook of Marchand's work for pedrozoa & coelenterates (and/or others) for entryology); and Give him Schroedinger

⑥ How about ultra violet order?

⑦ Call Leila about letter from "Bronnies" to use Hancock Park.

⑧ Council meeting

A. Closed Mondays; No one in without pass person with them at all times
Change janitor schedule

B. Guards – have not learned of our ideas about new concentrations, Dr. Deans & Pelant's views.

C. Fumigation: Curators check with Smyth within next month as to how to care for their responsibilities.

D. Can the Editors janitor continue under Byrnes' salary instead of Elvia's.

& can be handled without injury to specimens
Shell Exhibition in St Petersburg Municipal Pier
~~City, Fair~~ sponsored by Shell club of St. Pete.
exhibits from all over U.S. '48.

Dec. 15, 1951 Visit from Pemberton -
Regarding fishes - Bill Pemberton:

The large mtd fishes are for the most part good additions. They would, however, need refurbishing (repainting) before being exhibited. Nevertheless ~~they should be~~ preserved ~~Dave I~~ requested rather than to discard & thus go through the process of casting all over again when the time comes for a Marine Hall. Bill believes that if all the deep Pacific coast fish can be shown they should be included in a Marine Hall when prepared.

He believes that those fish which are not of the Pacific should not be shown.

The fish groups on the 2nd floor he thinks should remain until ~~another~~ place is available to display them, though these groups could be improved upon by ~~the~~ department Calif. fish & create considerable interest.

for house room
Jessie — $1.00

bring samples of Eaves' in tray
to Bd for. meeting

Colors not true (blue)

Barred Rockgroup "wire flag"
Quarters sail or sail fish.
Broadbill must be rare so large.

Things to be brought up from previous pages

(1) Check with Fred re- Western Mus Conference

(2) Ask DeCosta who pays when Museum employee subpoenaed on case brought thru Mus. work (private suit)

(3) Have whale dusted

(4) Bess & Barker to clean cases of Mineral Hall

(5) Cat & sloth post cards

(6) Pollard's suggestion of an exhib in Anth, Sci, Art of one period in Hinton

(7) Call Mr. C. W. Johnson MA 94111, Ext 365 in Richfield Bldg - 6th & Flower to see model of underground oil field Sta Barbara & San Luis area in Cuyama Valley. Weighs 3/4 ton, 10' x 4' x 2'

(8) Henry see Dr. Hill about Japanese magnifying glasses for exhibits

(9) Spinifels repair / staining

(10) Get buy from Rene Engel

(11) More boxes above rotunda so jaws can be fixed

(12) Signs for Hancock Park "No Bicycles" and "Hancock Park"

(13) Get info regarding fossil logs at Catalina (see Smith in Arch.

(14) Mr. Marsh has cut of Hadley & use.

(15) Tell Floyd about Marsh's colorful 2 1/2 "Black on sunflower

new snail method.

~~Thank you for sending Snail specimens~~

The snails you sent are of the common garden variety, not the African ~~However, as you know,~~

Do destroy them

(1) Spread UNDER your bushes any good commercial snail killer or Chlordane dust or chlordane spray

(2) Do not water here, but water the lawn generously in afternoon.

(3) After dark you will find the adults on the lawn & they gathered up & burned, or stepped on.

(4) Repeat this operation twice a week.

Papers carried from Aug 16 PM & Aug 17 AM.

Data on snail calls Aug. 17 — follow up Sat. Aug 18 PM

Friday, August 17 — 310 names & addresses were taken by phone by Barbara, George, Mrs Grady & myself. At least 100 more were talked to & convinced they had the common snail so names were not taken

Saturday and Monday another 228 calls were recorded by name & address and at least 100 told by Mrs Grady & ① call again or ② come to Museum & see exhibit, or ③ send specimens in — names of these were not recorded. Barbara worked at phone all morning & Benson all day Monday Geo. was alone Saturday; Back door man took some of the calls.

George spent Monday morning getting packages & mail — 45 packages of snails and 42 letters. No Cepaea snails received but 2 or 3 records of other kinds of snails. (one a lichen feeder, native of Washington state.

George & Henry and I worked up an exhibit on the snails to be put in La Brea Hall for Tuesday when the Press will be asked in.

George wrote form letters to go on cards to all who wrote or sent in specimens.

Talked with Mr. Ryan of
Co. agricultural commission regarding
snails, says Hill worked with them
during giant snail outbreak of
Hollywood in 1940. Snails then
occurred in Elysian Park near
Bailon Sanitarium; in Eagle Rock
at Playa del Rey.

Suggests burlap bag or turned over
box or flower pot in damp place
to attract snails & be gathered &
destroyed.

Calls the "Opium snail" the
"Milk Snail", mentioned especially
the blackness of the flesh at the genus.

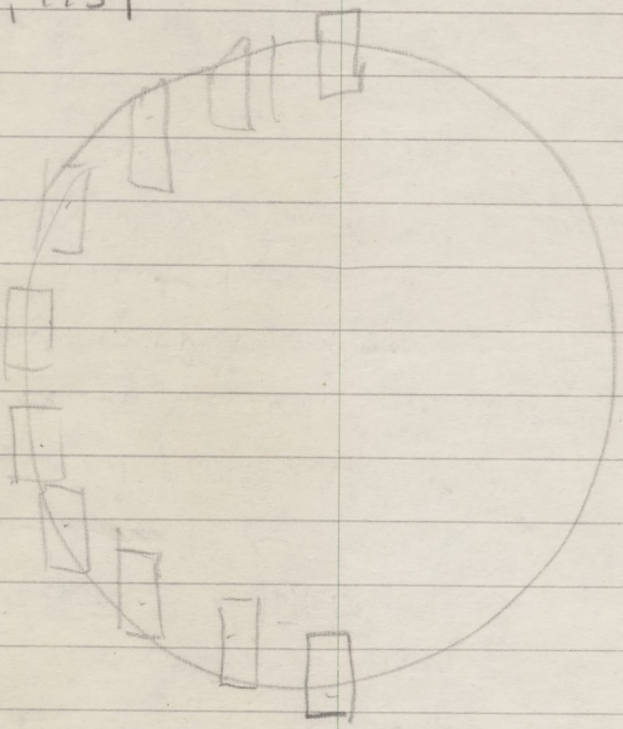
Miss Lucas from Civil Service phoned re: Curator of Exhibits Exam. requirement

Dec 19, 1951



5903 Damask

December 26 – January 4

To do

(1) Be sure Dybbitt is in by Jan. 1 with publicity prepared.

(2) Check with Armstrong about movies at N.P.

(3) Arrange to see artists about drawing of beginning life cycle stage

(4) Ken on trip of Jan. 3-7 – Get cactus – See Barber for bird.

(5) Ken get ahead on animals needed for Scout District (Boosavail)

(6) Barber & Henry work out how to show cellular & colonial stage in Unit 1.

(7) HH write labels for Primate

(8) See Ruth Mallood about order of film on Photosynthesis for Jan. 22

(9) Publicity on "Use your Museum" noting various things curators can help the public with.

(10) Letter to Reinhart to finish up info on Bustamia Read letter from him 1/2/52

(11) Note to Mr. Wilmot to thank for reminder that "Fossil Birds" run low. Say will not have new edition.

HW 53-56 O-57

Should read 1953-54

IVO 53-54 0287

Cuts to be kept		Cuts to be discarded	
big sloth	766	little sloth	173
little sloth	767	big "	174
antelope	763	antelope	46

Reports + news should read History, Sci. + Art as per title of Museum – constantly putting art first emphasizes it.

Staff meeting - Feb. 13, 1952

(1) Give idea of dept. & who is talking in answering the telephone.

(2) No smoking in the exhibition galleries

(3) Curators come down for mail.

(4) Large projects for which money would be needed. Write me a memo stating
(a) The project
(b) Its purpose & what we will have to show for it, how it fits into our program (aims)
(c) approximate cost.
Want these Friday if poss.

(5) Meeting of Western Museums Conference any ideas for program? (Give mine)

(6) Mr. Schuchardt plans for additional building space, 5 yr plan and other.

(7) "Hunting Animals of the Past" film on Tues. March 25. Univ. of Nebraska film

(8) About March 12 we will all go to RPS, in lieu of staff meeting. Leave at 9:30

(9) Radio notes - Where are they?

(10) One drawer of plates to be sorted

George - may need your help for visits

Bonnie labels. Chart to Marion, Physiol. chart I want independent

Ken - Flying Squirrel

Bill Larsen - student Architect
10 Am Slums.

48-52 — nursing in /—

47-52 Teaching

Application will be reconsidered

more detailed statement of exper. yr by yr. How much time on dif. things or duties by O/O send another. Have you all requirements for Ph D.?

I had a conf. talk with C S this aft. T They agree to reconsider your application. The difficulty seems to be that They think if you were doing grad. work you were not giving full time to the exper. required. They suggest you send a more detailed statement of your experience for the last 10 years. Give the amt of time at each kind work for each yr. For example 1947-48 2090.

teaching Biology, 20% grad. study, 40% collecting, mtns classifying mice for min. collecting, etc. ~~Yes~~

I feel sure the exper. is all there but it is not shown too clearly. Be sure to show a year's accurate exper. if you have it (as I think you have). ~~Put them~~ Apply blank is enclosed or you can use plain paper if you prefer.

One more thing have you completed all the requirements for PhD.? You indicate that you will get it in June. Is that just because that's when the degrees are handed out or have you get completed the requirements ~~Please state that you have completed requirements for your~~ have done ~~so~~ as with c s ay am

Work on confiscated pelts etc.

Trip Bonnie and Arthur to Colorado Desert:

Ecology
- *Creosote Bush 4 x 5' (need an 8 x 10 for Root chart: can the 4 x 5 be enlarged?
- Grass (which rolls up its leaves) 4 x 5
- Lupine (" curls leaves 4 x 5
- Salt Bush 4 x 5
- Plant that protects with pits 4 x 5
- " " " " whites 4 x 5

Desert tea 4 x 5 (plant) (need 8 x 10 for root chart also enlarge this?)

Grass
*Creosote Bush (alcahol)
Annual

Be sure Bonnie has complete list before she goes, including sizes + which are long, + which vertical.

Which ones on classif. chart can be shot on desert?

March 14, 1952

Charles Booth - Shell Oil Co.
called about "dwarf antelope"
teeth from Upper Miocene on display
at Hobby's Desert Resort, Borego Springs,
Calif., in Benson Tours Office.
They said they obtained info from
LA Co. Mus., George T. remembers
a Miss McClain who brought the jaw
in several weeks ago & promised to
give us further information on another
find she knew of. Booth wanted
info on why we said Up. Mio. This
was a tentative suggestion based
on vague description of where specimen
came from. Mr. Booth gives
exact loc. of the antelope as
Section 19 (in the SW quarter of it)
Township 9, South, Range 6 East
He has two other bones from there
which he will show to Savage at
the AAPG meeting (1½ feet long)

Bonnie can get saved Thursday if
Arab's time enough.

Science Staff meeting

① Remarks on Quarterly Reports: Please use the 6 divisions we worked out together (Review them (see sheet filed under staff reports)
Include a Miscellaneous ??
Time spent in identifying specs. for outsiders goes under Public Relations
Time spent in identification of specimens for our collections goes under curatorial
UNLESS it is expected to publish on it
List under our research ONLY that which will be an original published contribution
List accessions? Probably only those not reported to registrar. Suggest referring to outstanding accessions known
List lectures and give name of group to whom made.
Catalog work is curatorial
Be specific on work done
i.e. what exhibit worked on, doing what field work to what areas obtaining what. (Rules give age)

② Report all accessions on the blanks provided
③ Mail to Ref. books + Library needs. (Lib books for staff or outside? Consult)
④ Exhibitions Division contact curators direct

Bonnieuse pass T. & Th nites.
